

## Jacky Boy's Healing

After the instant Miracle from God, Jacky Boy is even able to jump again. This picture was taken with a pupil in the saddle.

Before

After

### JACKY BOY THE ACCIDENT

The deadly thump pulled the reins from my hands. The worst had happened. The speeding car had hit my horse and crashed into a bank. Luckily the driver emerged unhurt, but Jacky Boy just lay there. Later we discovered that the damage was actually fatal. The shoulder bones were broken in two places, the main Deltoid muscle and the nerve severed right through, and a 12 by 8 inch piece of flesh was torn from his neck. Yet, I would not give up. I sent Jacky to Onderstepoort where he would receive the best. But the vet's could do nothing. They refused to pin the bones, due to no muscle to keep the bones in place

anyway. The horse was a complete cripple, his leg absolutely useless. They therefore tried to revive the muscle, but the treatment failed.

### JACKY BOY HEALED:

After 6 weeks, I realised that I had to have Jacky put down, and made arrangements with the vet for 4 days later. That night I thought and thought - was there anything I had not tried? After some time I realised that there was - I had not prayed! But how could I pray if I had not gone to church for years? Yet, if God created the heavens and earth and everything in it, then I reasoned, it is logical that He also has the power to recreate. Yet if this were all real, then why had I disregarded it? Would God forgive me? Could I even ask God to forgive me? This is what I did do. I asked God to forgive me and still more, (only if it were His will) just heal Jacky well enough so that he could walk again. That was all. I could accept him as a cripple so long as he was not in pain. If God did this for me, then I would in return serve him for the rest of my life, for I would know for sure that He really is alive and really is God. God did hear me. I went out to see Jacky the next day. He looked just the same, he walked and fell. My heart fell too. Then, in the next instant, he picked himself up with his hind legs, and trotted on all four feet. I could hardly believe my eyes. God had healed my horse! Not only that, the horse was soon entirely

healed and has taught children to ride in the riding school for the last twelve years, without one day's lameness.

Due to this wonderful miracle, my life was changed. I accepted Jesus into my heart as my Lord and saviour and today serve the Lord with Joy in the work he has led me to do. To accept the Lord into your heart as your Lord and Saviour takes a simple decision and prayer.

A. A decision to turn round from any sin and follow Jesus.

B. Come to the Lord pray and confess to Him any sin in thought word and deed and things left undone that you know of, right back into your early childhood and ask for his forgiveness, knowing that he will forgive you immediately. Then accept Jesus as your Lord and Saviour.

C. Pray Daily. Join a church or Christian fellowship, and live out your new Christian life day by day, allowing the Lord to guide and help you live it. Tell someone about your new commitment to the Lord.

LETS PRAY: Jesus I come to you as I am. please forgive me for where I have sinned against You in thought, word and deed, and in things I have left undone. Please come into my life as my Lord and Saviour and help me to live closer to you day by day. Thank you Lord. Amen.

## The Biblical Approach to Horse manship

As you can imagine, through Jacky Boys healing I became a Christian, who wouldn't. The Lord then showed me Biblical principals to riding horses, that of communicating to the horse through feel and weight to influence the horse to do as you wish him to without resistance. Any negative resistance a horse shows through force of legs or rein are replaced by positive more gentle asking through leading the horse to move to your own body weight as your very own legs would convey the horse to yield in happy willing obedience.

The Lord then enabled me to write a book on it and to my amazement this book has gone far and wide. I now receive invitations to teach this approach in many countries of the world from the USA to Latvia., England, France and Africa.

Every year I am invited by Faith Ranch Ohio to run instructors clinics. And examine Christian Riding Instructors under "Christian Camping Horsemanship International." These riding instructors then train riders on the many Christian campsites that run horse programmes. Here they use horsemanship to share Christian principals and morals to thousands of young people and many accept Christ as a result

Faith Ranch Ohio USA riders

### USA Itinerary April 2005

April 15-17 Faith Ranch, Jewett, OH - Levels One and Two OR Trail guide Instructor clinic. Skills clinic starts at 8:00 am Friday morning. Certification clinic starts at 5:00 PM. Contact Linda 740-946-2255 or [faithranch@faithranch.org](mailto:faithranch@faithranch.org)

April 18 Faith Ranch, Jewett, OH - General Teaching Skills Clinic. Improve your teaching skills and learn how to best help your students improve their riding skills! Clinic will be from 8:30 AM till 5:30 PM Contact Linda 740-946-2255 or [faithranch@faithranch.org](mailto:faithranch@faithranch.org)
