

SUZANNE'S MINISTRIES

STEP OUT IN FAITH

Many people excitedly received Christ at a telephone crusade from England in Sierra Leone. We have since reached more towns in Guinea doing crusades through a French interpreter.

The Telephonic radio crusades have also had amazing results. One Friday as we spoke over radio, Pastor Bobor cried how a thief had come into their church and stolen 153 white plastic chairs. 'If the thief is listening to this, I command you to repent of this sin, receive Jesus as your Lord and Savior and return every chair.' Sunday arrived. Every person came to church expecting to stand and to their amazement the thief had returned every chair. The congregation danced with joy and thanksgiving to their living God.

GHANA Pastor David Botchway has started new Bible Schools in Ghana and Togo. Some people in Ghana also supported the ministry with bibles in small drivers in different languages for the pastors and evangelists. We really thank you for making this work possible. David's greatest need at present is a replacement car as his second hand one from 2001 is now so rusty that it has become dangerous to drive. He drives very long distances on very bad roads.
