

EXCITING NEWS!

In 2018 we started our Bible School inside prisons in Uganda & Kenya. I have just received the photos and news that in Kitale Prison, Kenya, a group of the prisoners attending the Bible School have formed themselves into an evangelistic team. Their aim is to reach out with the Gospel to other prisoners who do not attend the Bible School Course. The team is holding the Bibles we were able to supply them with.

Our first team of prison evangelists!

Prisoners at Kitale kneeling before the Lord, committing their lives to Him, fruit from the evangelistic team's efforts.

What thrilling news this is, visible evidence and fruit from the Bible School work inside prisons. We thank God for His favour and blessing upon this work and we truly thank all the financial and prayer supporters of the Bible School work, for without your help this could not have happened.

Kasana - New Classrooms Construction

With rising numbers of children now attending Kasana school, it has been necessary to provide another classroom block so all levels can be taught.

In July, Geoffrey Auma our Director, was making his visit to the schools to take the items needed like books, pens, disinfectant for the toilets etc, (See photo of van below.) He decided to treat all the children with a special packet of biscuits, I'm sure that went down well! Biscuits are not something a child from a village would have in their normal diet so it would have been a great treat for them!
