**SIERRA LEONE BREAKTHROUGH,** I believe this is a result of over 1000 intercessors battling in prayer and fasting against the spiritual forces of darkness. It has resulted in growth, where the Holy Spirit comes down on conferences in glorious power, causing many people to be baptised in the Holy Spirit and others to be instantly healed. Another development is the distribution of memory sticks containing a course of teachings. These are downloaded from our YouTube or Facebook channels and sent out to all our Bible Schools and Church Plants. Karima TV Station will be broadcasting these teachings weekly from now on.

**NIGERIA,** Oladipo is also downloading the teachings for his Bible Schools and House Churches. Oladipo writes, "Your last post gave serious hope to the people at the Mission Field, especially those effected by the flood. So many souls were won for the Lord and we experienced unprecedented miracles. Please we need more videos."

**GHANA,** David continues his excellent work in training and graduating both evangelists and pastors. Due to this they are reaching into more and more remote villages.

**LIBERIA,** Jonathan has started a new farm project as a result of the weekly "Farming God's Way" radio broadcasts. He will be growing food to feed orphans, widows and the poor in that area. He is so grateful for the support he received from the United Kingdom to enable this project to become a reality.

**THAILAND,** Nicholas Bensted and his faithful team have been praying together via Zoom for an hour every Friday. We believe that this prayer has enabled recent growth and 200 new believers being baptised.

**YOUTUBE AND FACEBOOK WEEKLY TEACHING SERIES,** Do watch the short, but powerful teachings that the Lord told Suzanne to edit and upload every Saturday. Against the fact that Suzanne knew nothing about editing, the Lord intervened by sending a fellow evangelist to teach her. The Lord has enabled a very good response from viewers, as well as using them as part of the Bible School teaching syllabus, radio and TV Broadcasts.
