

# Kenya

## Migori District Ayego Church

More than half the people are sick, the rest of the people looked stuck to their pews. The Lord healed the sick, now what? The congregation was small, it did not appear to grow.

Posters were up advertising the crusade. I asked the people" did anyone come as a result"? "No one". "Do you think Jesus would put up posters to come to a certain place to hear Him"? No Jesus went to the people.

"Everyone stand up, pick up your pews we are going to the market place, everyone came outside, now lets sing". We walk with half hearted singing and put up the speakers and megaphone.

Within minuets as the numbers of people double, we sing two songs and I give the gospel message. The people respond and become Christians. I then call the sick forward, Jesus heals them and they testify.

That evening many come from the market place. The next morning the church was full to overflowing with more people from the market place to become Christians. 30 new Christians join the church.

The church is now an outreaching church going into the market places, schools, prisons and once or twice a month. They no longer sit on their pews for long, for now they have a heart to reach the lost.

Family become Christians as a result of the crusade and are given tracts

Gathering at market

Setting up for crusade in market

## Gucha Crusade with Peter

Gucha is up in the hills in Kenya, small churches with disunity.

The first night, no response, except for one healing and a young man asking prayer for his mom to return after twenty years absence. She had suddenly left the village.

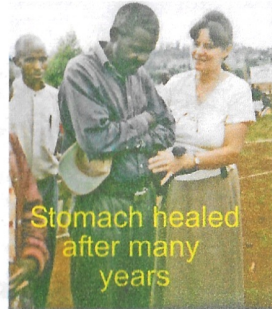

Next day Saturday, the Arch Bishop arrived at the pastors house. it was beginning to rain and it was an outside crusade to begin at 2pm. We prayed for the rain to stop. Suddenly men entered excitedly to tell us, they had just seen the clouds turn round and the rain stop.

We had a wonderful crusade in sunshine and many responded, I also prayed for the archbishops eyes.

Sunday. To our amazement, all the churches cancelled their services and joined ours. We then found out why. The boys mom had returned yesterday, after being away 20 years, plus the Lord had stopped the rain for the crusade. The whole village now realised that Jesus Christ is Lord and alive in our midst.

The rejoicing was ecstatic as all the denominations became as one to evangelise the whole community, for now they really believed.

Three weeks later we had an email from the Arch Bishops to say that the Lord had healed his eyes and he can now see.

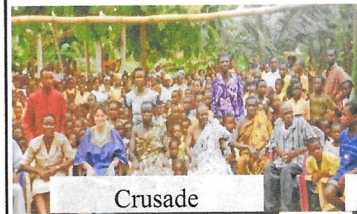

Stomach healed after many years

# Ghana - The Rain Forest

Eurovisions Prophetic Magazine seems to reach into many places. This time blazing a trail of truth and light into the rain forests of Ghana. Here open and eager people wait to see the real miracle healings that Prophetic Vision speaks about and they see them, a broken collar bone instantly healed and cripples walk, what ecstatic praise and worship follows, pure rejoicing.

Next day we visit the traditional King and all his elders. They ask if I have a message from the Lord. The Lord immediately gives me one and it is received gladly. The King then sends the palace gong gong beater to summon the people to come to the crusade to get blessed by God. He also sends all his elders to join the crusade, five get healed and one gets saved.

Crusade

Standing before the King

The gong gong beater

Ester had a broken collar bone, now healed she can raise her arm.

Essi had a bad knee, now she can walk

Mary Appiah could not walk but now can walk.
