West Africa Work

Sierra Leone: The primary school is now built up to roof height. They will roof it this coming month. The orphans plus their host families are looking forward to starting school for the first time.

Radio Ministry Testimony: Sunday 27th January. We were told that the people who practiced corruption, were going to court on the following Tuesday to come against the new president who was fighting corruption. They even wanted to wage a war. The Lord told me to hold a radio prayer meeting which I mentioned. The manager of the radio station then offered us to do a programme on Monday morning at 7am. The next day we had a powerful half hour of prayer over radio. During the last five minutes I felt the Lord's presence that the battle was now won against the corrupted opposition in the spiritual realm, which also meant the victory in the physical realm, so we praised and thanked the Lord.

The manager of the radio station then comes in to say we could do another programme at 7am on Wednesday morning, for a full praise and thanksgiving service over the radio.

7am on Wednesday was a truly wonderful victory thanksgiving service, as the Lord had answered our prayer. The people practicing corruption were defeated and righteousness has prevailed.

Ghana: David Botchway and friends have bought land and built a "National Training and Prayer Retreat Centre" which will also be a church for the community and training hall for the bible school. They have built the building themselves up to roof height. We are now trying to raise £1.499 to roof it with roofing sheets.

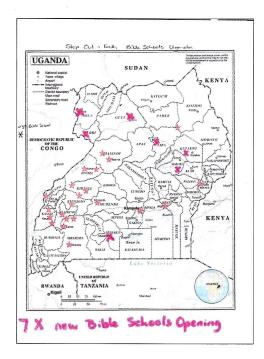

Liberia: The radio ministry carries on steadily. They also need to roof the last two classrooms of their school. We hope to provide money for this sometime this year.

Nigeria: Oladipo Aiyemo has started ten new bible schools in new locations, some up North with 15-20 evangelists in each. He has also worked a lot in the North East of Nigeria and was able to reach out to many people who gave their lives to the Lord and some were healed. He also gave out some bibles. Some of the students were victims of the terrorist group Boko Haram.
